Project Information

Project Description: Please use Page 2 of this Evaluation Form to provide as much detail as possible.

Site Location: _____

Project Development Stage (check all started): Feasibility Planning Funding Design
 Engineering Construction Operational

Does the source flow 24/7 all year? _____ If not, please explain on Page 2 of this Evaluation Form.

Installation Site Conditions

Hours of Operation _____ hrs/year End User's Incremental Electrical Cost _____ per kWh

Liquid Temperature _____ °C or _____ °F

Flow Rate: _____ kg/s or GPM Pressure: _____ psia

Liquid Type: Geothermal Brine Water Oil Type: _____ Other: _____

Condensing Source: Water Tower Air Cooler Other: _____

Condensing Temperature Maximum: _____ °C or _____ °F Minimum: _____ °C or _____ °F

Reasons For Considering Purchase

Please check all that apply:

- Energy Savings Tax Incentive Pressure Control
- Energy Efficiency Carbon Credits Process Cooling
- Emissions Reduction Grant Green Benefits
- Other: _____

Completed by: _____ Date: _____
